Re: Documents Submitted under Montrose Site Partial Consent Decree for Chlorobenzene Plume Remedy Operation and Maintenance

Dear Mr. Whitaker:

On August 27, 2020, the Water Replenishment District of Southern California ("WRD") submitted a comment letter to the U.S. Department of Justice regarding entry of the Partial Consent Decree for the Dual Site Groundwater Operable Unit – Chlorobenzene Plume Remedy Operation and Maintenance (the "O&M CD"). In that letter, WRD requested receipt of all work product produced by Montrose Chemical Corporation of California ("Montrose") pursuant to the O&M CD Statement of Work.

Montrose is happy to provide WRD access to the Montrose groundwater document portal to permit WRD to access and download groundwater data as well as O&M CD work product uploaded by Montrose and its consultants. To obtain access, please contact Montrose's consultant, Mike Palmer of de maximis, inc., at [mpalmer@demaximis.com](mailto:mpalmer@demaximis.com).

Please do not hesitate to contact me if you have any questions.

Very truly yours,

Kelly E. Richardson  
of LATHAM & WATKINS LLP
